

Bug Reporting and Tracking Documentation

Step 1: Identifying the Bug

Bug Title: Accepting only one letter in name field

Bug Description:

1. Goto the URL <https://www.etsy.com/>
2. Click on Sign in button at the right corner
3. Click Register button
4. Enter a very short "First name" (Example: A)
5. Enter other fields with valid data
6. Click Register button

Step 2: Creating a Bug in JIRA Enter Bug Details

Login to JIRA: Access the JIRA software by logging in with your credentials.

Navigate to Create Issue: Click on the 'Create' button located on the top menu bar to open the new issue form.

Summary: Provide a concise title for the bug.

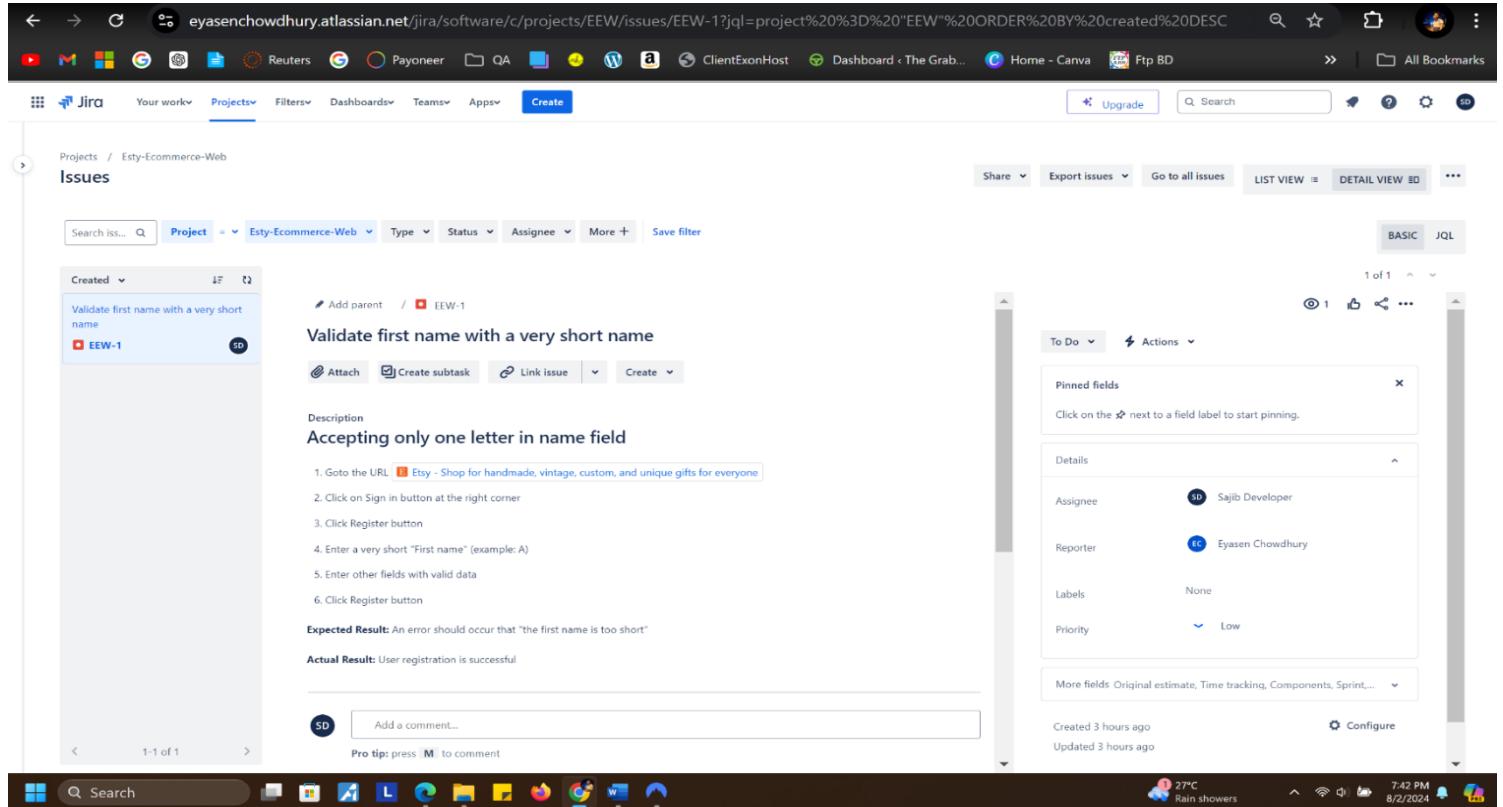

Description: Enter a detailed description of the bug, including steps to reproduce, expected behavior, and actual behavior.

Attachments: Upload the screenshot of the bug and any other relevant files.

Priority: Set the priority level of the bug to “Low”

Assign to Developer: Assign the bug to the developer for resolution

Submit the Bug: Click the 'Create' button to submit the bug into the JIRA system. The bug will now appear in the 'To Do' stage.

Step 3: Developer Progress

1. **Review Assigned Bugs:** The assigned developer logs into JIRA and reviews the list of assigned bugs.
2. **Change Status to In Progress:** When the developer starts working on the bug, they change the status from 'To Do' to 'In Progress'. This indicates that the bug is actively being worked on.
3. **Work on Resolution:** The developer investigates and works on resolving the bug. This may involve debugging code, testing changes, and verifying that the bug has been fixed.

The screenshot shows a Jira issue page for the project 'Esty-Ecommerce-Web'. The issue title is 'Validate first name with a very short name'. The description states: 'Accepting only one letter in name field'. The steps to reproduce the issue are: 1. Goto the URL 'Etsy - Shop for handmade, vintage, custom, and unique gifts for everyone', 2. Click on Sign in button at the right corner, 3. Click Register button, 4. Enter a very short 'First name' (example: A), 5. Enter other fields with valid data, 6. Click Register button. The expected result is: 'An error should occur that "the first name is too short"'. The actual result is: 'User registration is successful'. The environment is 'None'. The issue is assigned to 'Sajib Developer' and reported by 'Eyasen Chowdhury'. The priority is 'Low'. The issue was created 4 hours ago and updated 13 seconds ago. The status is 'In Progress'.

Step 4: Bug Resolution

1. **Resolve the Bug:** Once the developer has fixed the bug, they perform thorough testing to ensure that the issue has been resolved and that no new issues have been introduced.
2. **Update JIRA Status:** After confirming that the bug is resolved, the developer changes the bug status from 'In Progress' to 'Done'. This indicates that the bug has been successfully fixed and is no longer an issue.
3. **Communicate Resolution:** The developer may add comments to the JIRA issue to describe the resolution process and any changes made. This helps keep the team informed and provides a record for future reference.

The screenshot shows the same Jira issue page as before, but the status is now 'Done'. The issue title is 'Validate first name with a very short name'. The description states: 'Accepting only one letter in name field'. The steps to reproduce the issue are: 1. Goto the URL 'Etsy - Shop for handmade, vintage, custom, and unique gifts for everyone', 2. Click on Sign in button at the right corner, 3. Click Register button, 4. Enter a very short 'First name' (example: A), 5. Enter other fields with valid data, 6. Click Register button. The expected result is: 'An error should occur that "the first name is too short"'. The actual result is: 'User registration is successful'. The environment is 'None'. The issue is assigned to 'Sajib Developer' and reported by 'Eyasen Chowdhury'. The priority is 'Low'. The issue was created 4 hours ago and updated 13 seconds ago. The status is 'Done'.
